The presence of this home can be felt the moment you walk up to adorable front porch. Upon entering the home, you'll notice the freshly painted front entry and with bright new tile. The front of the home features a generous sized living room with a gas fireplace that centers this great room. The formal dining room, with updated board and batten feature walls surrounding it makes it a fabulous space to host family dinners. The expansive kitchen features, granite counters, updated appliances (Fridge 2024 and Dishwasher 2021), a beautiful gas range, and great site lines into the sunny west facing backyard. A conveniently located mudroom and powder room complete the main floor, part of the extensive renovation back in 2001. Step into that backyard onto the gorgeous new cedar deck which sets the table for the beautifully landscaped garden area which surrounds the home (they have a great gardener they can recommend helping if you're not a GreenThumb ??)

Upstairs features 4 bedrooms, including the stunning primary with that renovated en-suite and walk-in closet decked out with heated floors and a heated programmable towel rack (heated towels are the best!). Three other bedrooms with sizable closets and another 4-piece bathroom (full remodel in 2022), including heated floors as well, complete this stunning and very functional upper floor. The basement has an expansive great room with loads of storage. Another full bedroom and 3-piece bathroom give this home the flexibility to have guests come stay with you, a potential live in nanny or a teenager that wants their own space.

Updated with a brand-new sewer line in 2020 along with a sump pump and back flow preventer valve, which will give you peace of mind all year round.
